ABOUT ME AND MY WORK

Typical projects, tasks or challenges you partner with nonprofits on?

Vecc Videography maintains a modern kit of videography equipment that can handle any situation that may arise for documenting the activities and programs of nonprofits. The areas in which Vecc Videography considers itself expert are storytelling, fund development, event/program coverage, and education. Videos produced by Vecc Videography, over the years, vary in lengths from short documentaries of up to twenty minutes, to social media lengths of thirty and sixty seconds.

Why would someone choose to work with you?

Understanding the budget restraints of nonprofits and developing production services that deliver the most value has been key, along with the creation of beautiful imagery and compelling narratives for helping clients to develop their videography for social media.
